Presenters GISP Credits : 1 hour - CON - 1 credit

News Briefs:

- ❖ The 2016 OKSCAUG Conference was a big success. We had over 300 people from Oklahoma and the surrounding states. This year is the 20th Anniversary. We plan to continue the Esri App Contest and Hands On Learning Lab (HOLL). Plus, we hope to incorporate a few special things for the Anniversary. We will let you know more over the next few months.
- ❖ This past November OKSCAUG hosted booths and the OU and Tulsa Community College GIS Day Events.

Will Gustafson, the Oklahoma SCAUG Regional Representative, was speaker at NEO's GIS Day Event. It was great to reach out the future leaders of our industry.

- ❖ The December User Group Meeting was held in Duncan, Oklahoma, as part of the OKSCAUG's efforts to reach out to southwestern Oklahoma. At this meeting, we held a toy drive that supported Pepper's Ranch, a local foster community. Local OKSCAUG supporters provided door prizes for the

toy-drive. We thank these organizations who donated to make it a success:

- Benchmark GPS
(<http://www.benchmarkgps.net/>)
- CEC
(<https://www.connectcec.com>)
- Cotton Electric
(<http://www.cottonelectric.com>)
- Cross Timbers Consulting, LLC
(<http://www.crosstimbersconsulting.com/>)
- Garver (<https://garverusa.com/>)
- Meshek & Associates
(<http://www.meshekengr.com/>)
- Eagle View/Pictometry
(<http://eagleview.com/>)
- WDT (<http://wdtinc.com/>)

- ❖ The June user group meeting will again be held at the National Weather Center in Norman. We are always looking for "user" presentations. If you have a project or interest that you are willing and able to share, contact one of the OKSCAUG officers. Also, let us know if you are interested in a tour of the facility. We will see what we can make happen.
- ❖ This newsletter is for sharing updates and information. If you have a project, activity, or event that you want advertised, let us know so that we can include it on the website and next OKSCAUG newsletter.

Upcoming Events:
