Esri & Microsoft: Better Together

Jon Doherty, Esri State Government

Agenda

- ArcGIS for Microsoft 365
  - ArcGIS for Office, Power BI, Power Automate, SharePoint, and Teams
- Roadmap
- Licensing
- Discussion

ArcGIS for Microsoft 365

ArcGIS for Microsoft 365

ArcGIS for Teams Communication, collaboration

ArcGIS for Power Automate Connect to data, schedule and automate tasks

ArcGIS for Office

Map Excel spreadsheet data

Include data from ArcGIS Online

Add dynamic maps to PowerPoint

ArcGIS for SharePoint

Map SharePoint and ArcGIS data

Share maps on internal and public websites

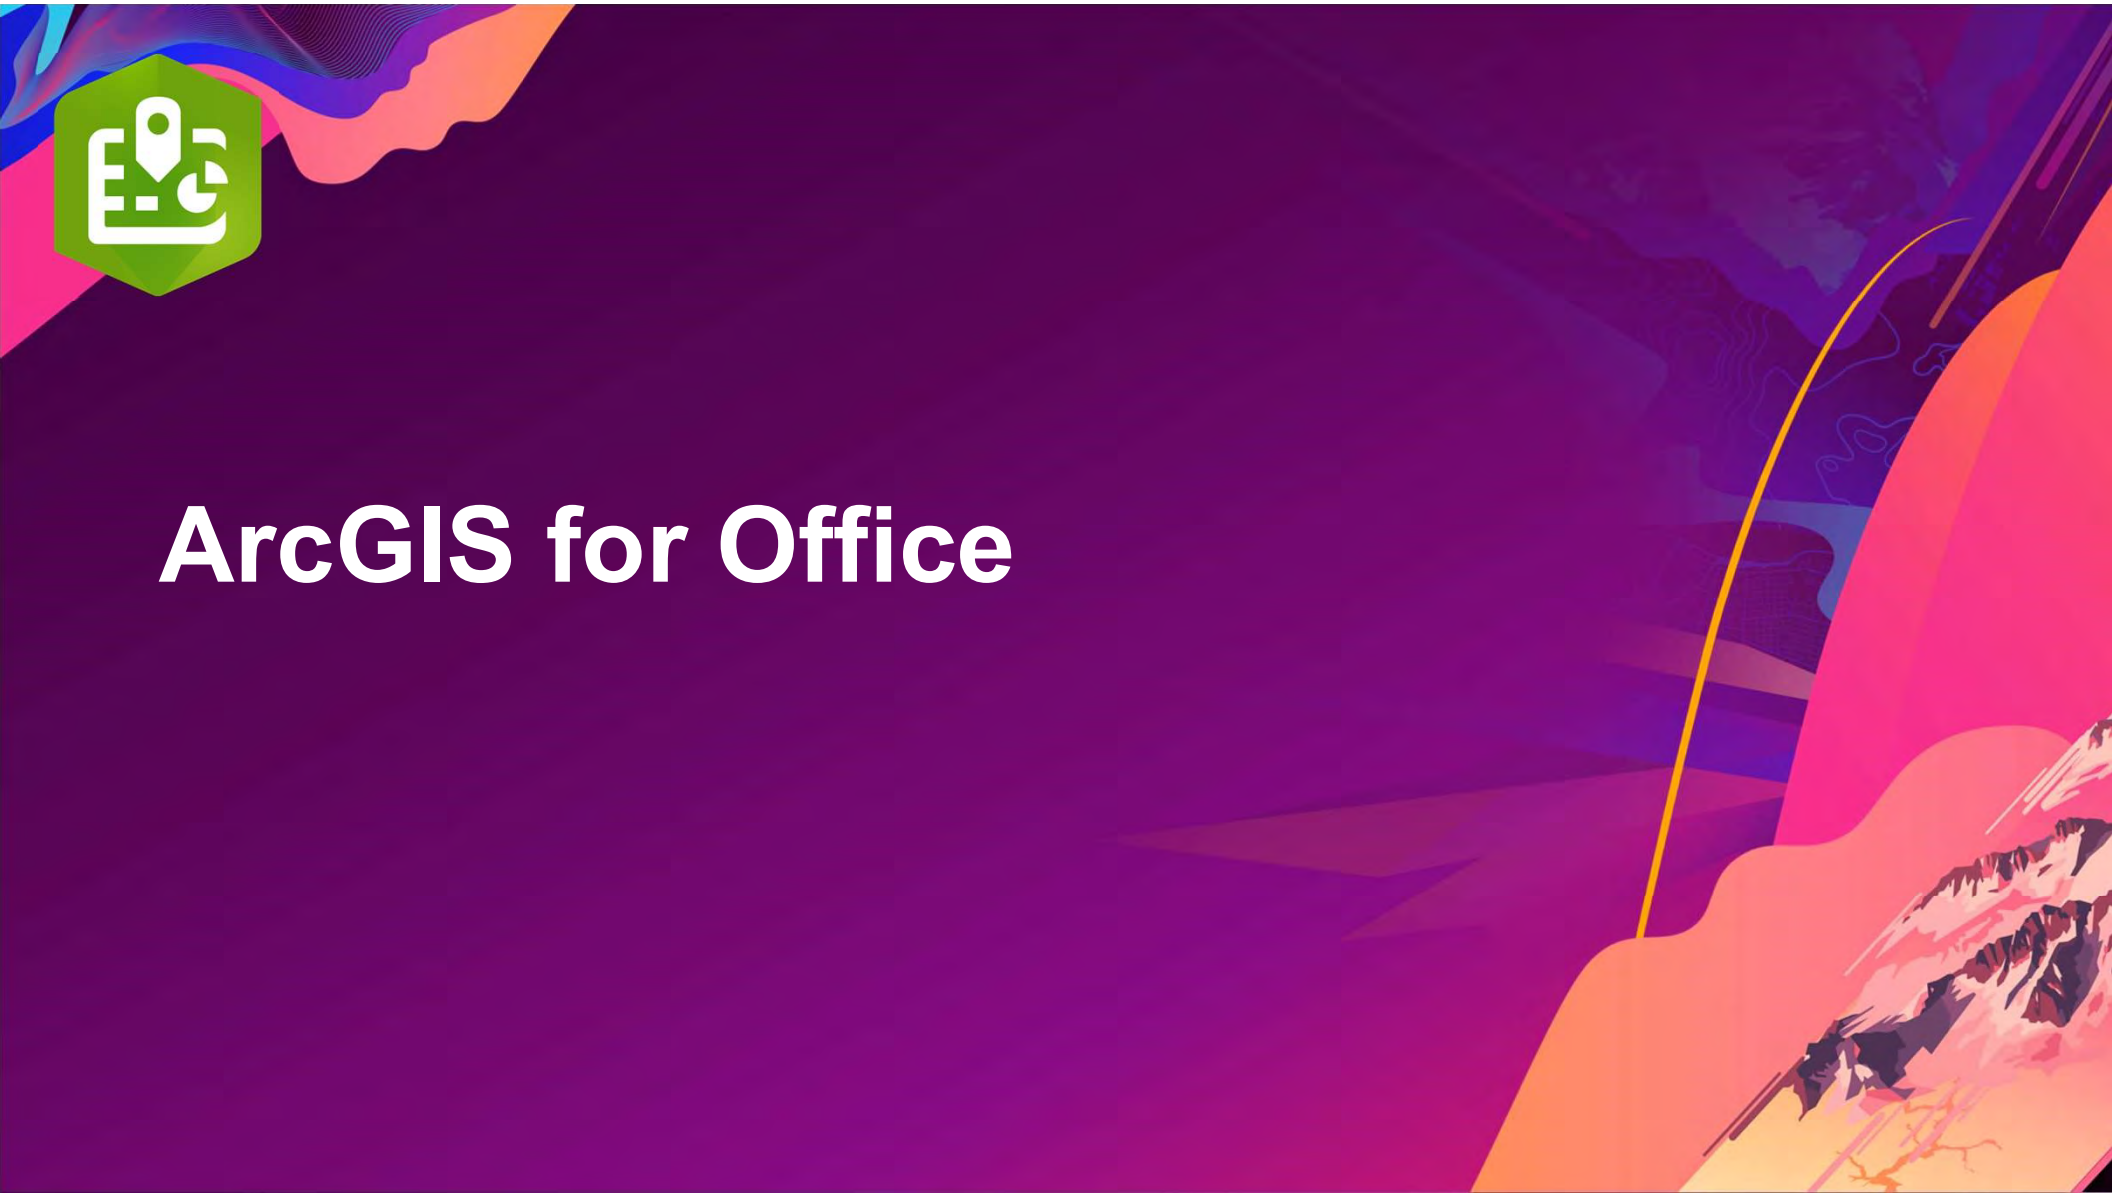
GeoTag documents to organize SharePoint data by location

ArcGIS for Power BI

Map Power BI and ArcGIS data

Use spatial analysis in Power BI

Share reports with maps



ArcGIS for Office

ArcGIS for Office

- Create Maps and Layers from Excel data
- Consume WebMaps and Layers
  - Living Atlas, Demographics, & your Organizational Data
- Lightweight Analysis
  - Detect patterns & trends
- Static & Dynamic Maps in PowerPoint
- Publish layers to ArcGIS
  - Create new feature layers
  - update shared layers
  - Updates to the spreadsheet update the map

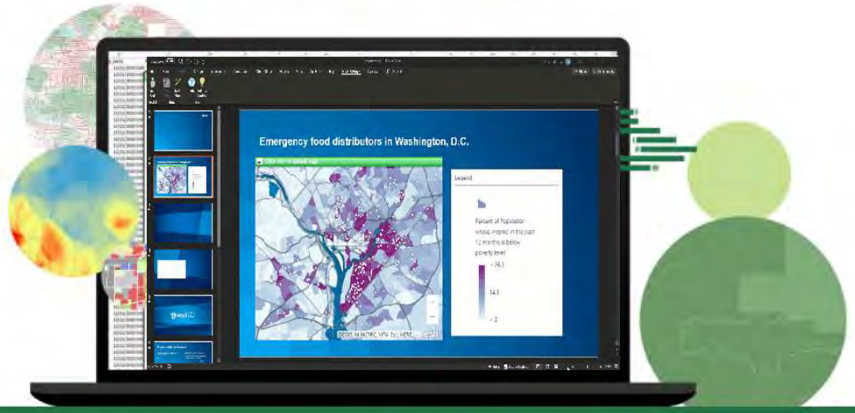
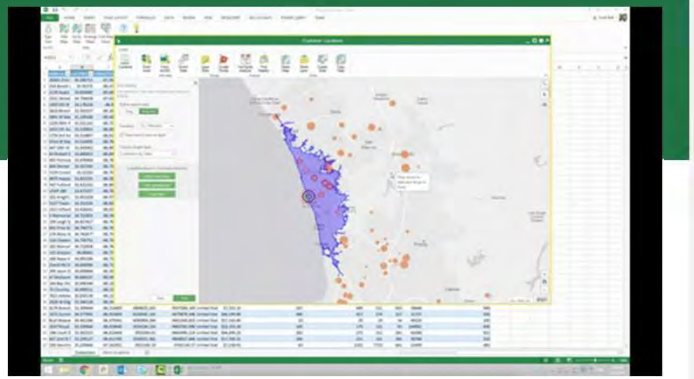
ArcGIS for Office | Overview | Resources | Download



ArcGIS for Office

Interactive maps in your spreadsheets and presentations

Make maps in Microsoft Excel and further the power of ArcGIS Online and ArcGIS Enterprise. ArcGIS for Office puts Excel data in the context of location. Use location intelligence to transform your graphs and charts into interactive maps directly in Microsoft Excel to see data from another perspective. Then, use Microsoft PowerPoint to share your map.



Add location intelligence

Maximize your information

Map your data to extract maximum value by asking a whole new set of location-related questions. Gain new perspectives you've been missing.

ArcGIS for Power BI

ArcGIS for Power BI

- Visualize Power BI data on a Map
- Attribute based layer joins
- Add layers for context
  - Living Atlas, Demographics & your own Organizational Content
- Lightweight Analysis tools
  - Detect patterns and trends in your data
- Publish to Web and Embedded Reports
- Integrated Power BI User Experience
  - Support for both Report Designers and Viewers
- Ships in the box with Power BI

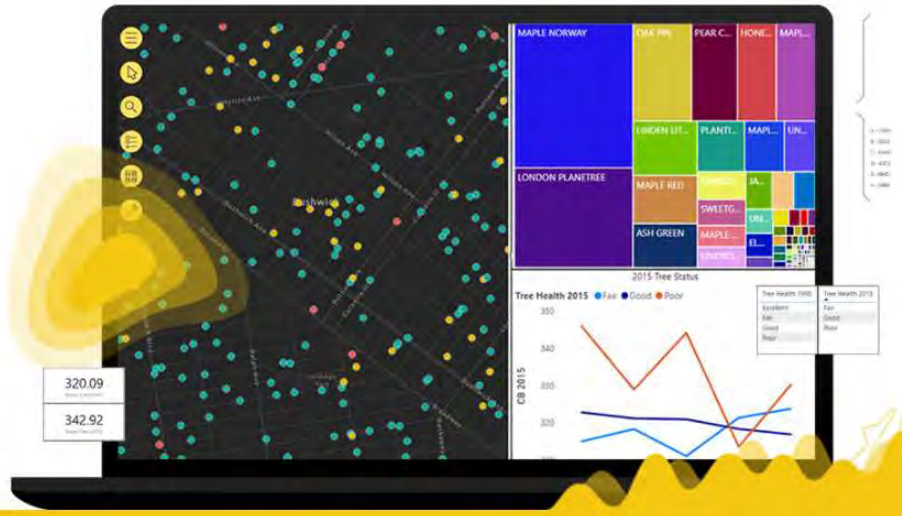
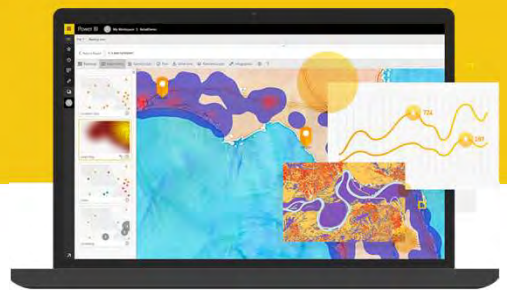
ArcGIS for Power BI

Map and analyze data in Power BI



Add a new layer of depth to data analysis within Power BI. ArcGIS for Power BI is a tool that enables you to map and visualize your data. The built-in spatial analysis tools and Esri's rich collection of global data can help you uncover patterns and trends that are difficult to see in charts, tables, or spreadsheets.

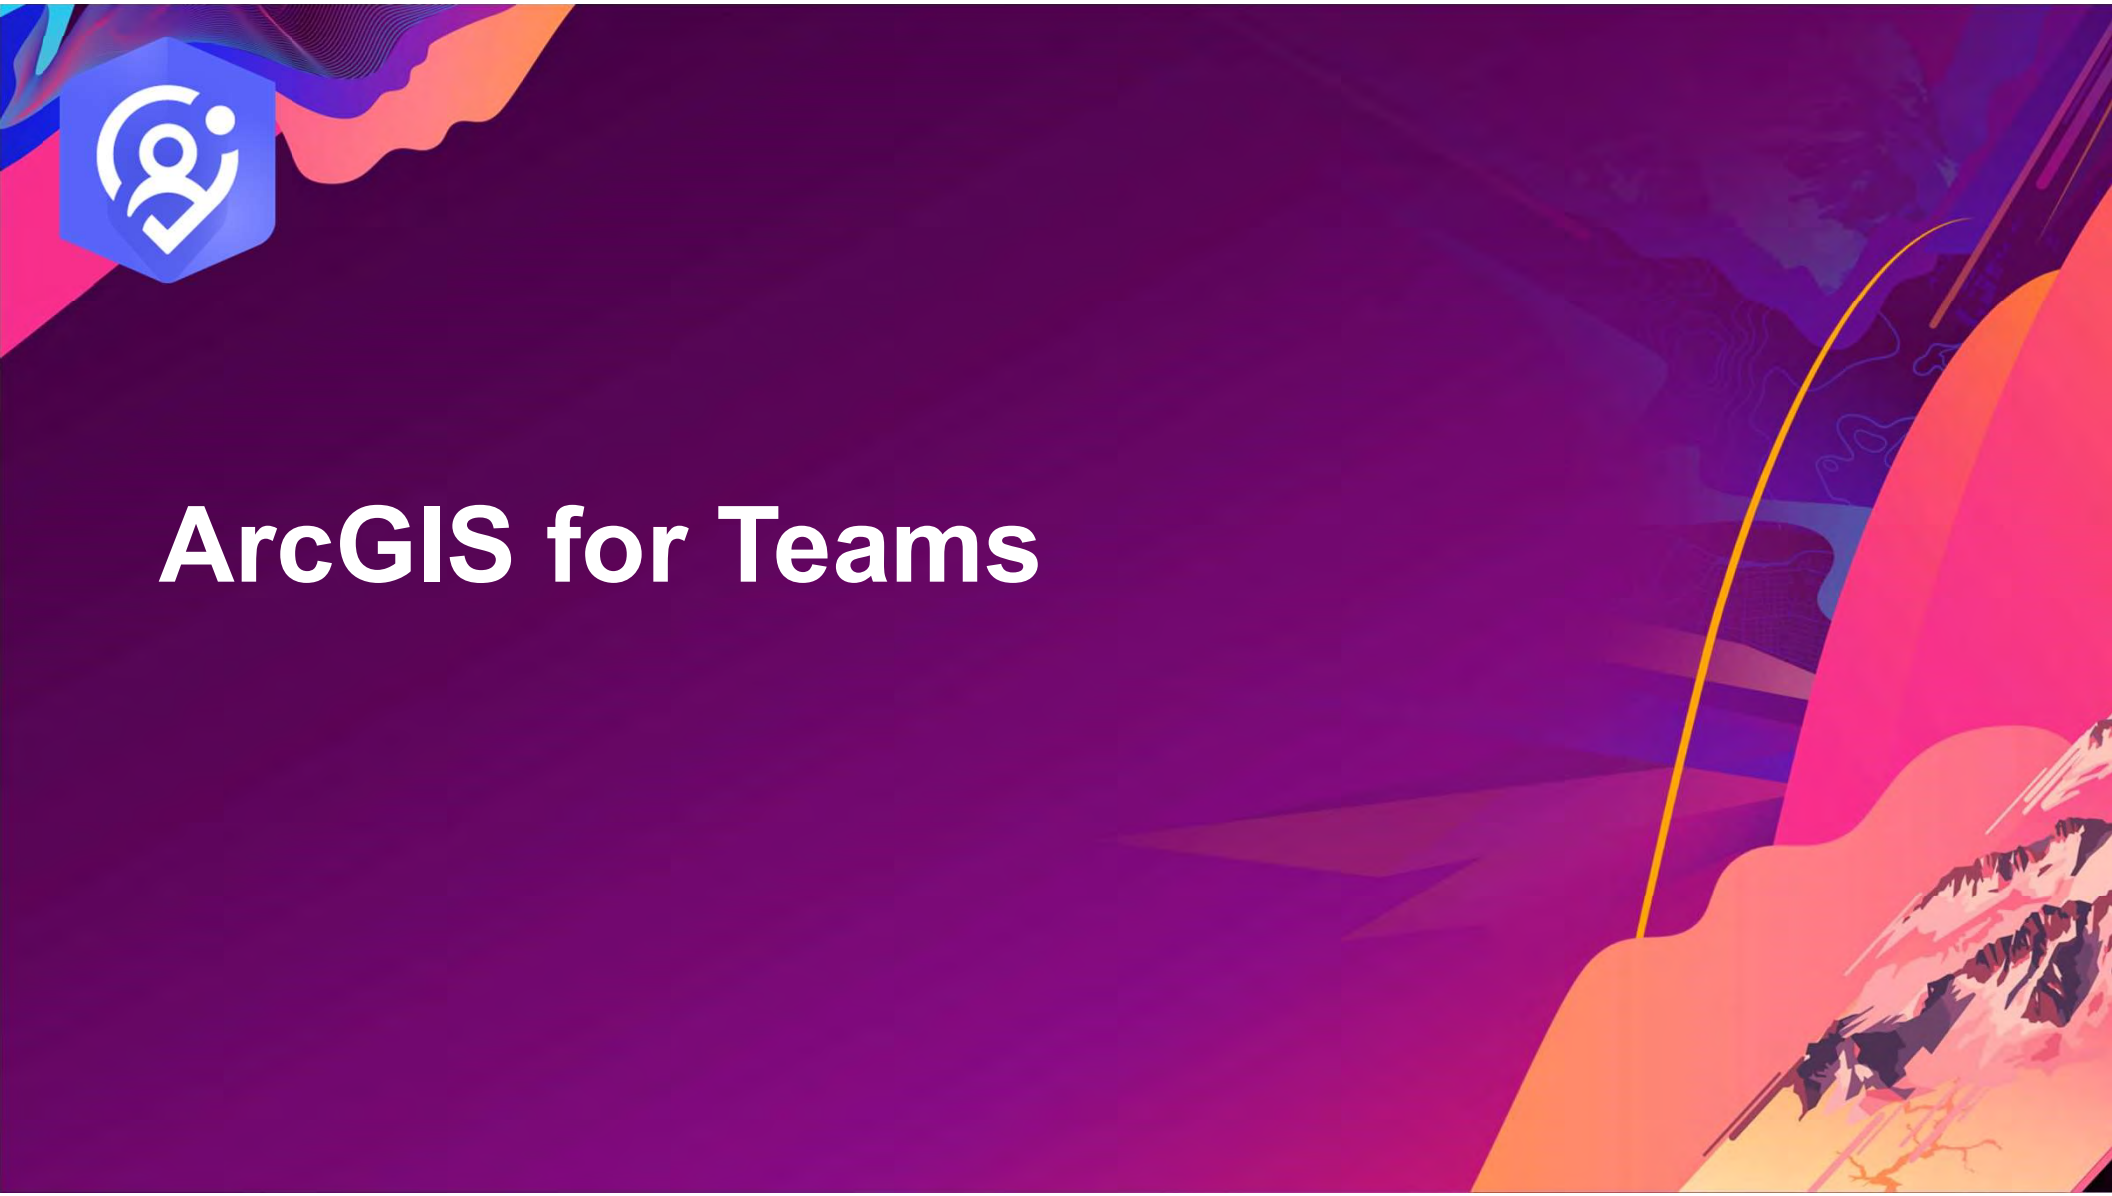


Benefits of ArcGIS for Power BI

ArcGIS for Power BI offers benefits for those who create reports in Power BI as well as report viewers.

Visualize data on maps | Spatially analyze your data | Bring your ArcGIS data | Share reports with maps | Data accuracy and security

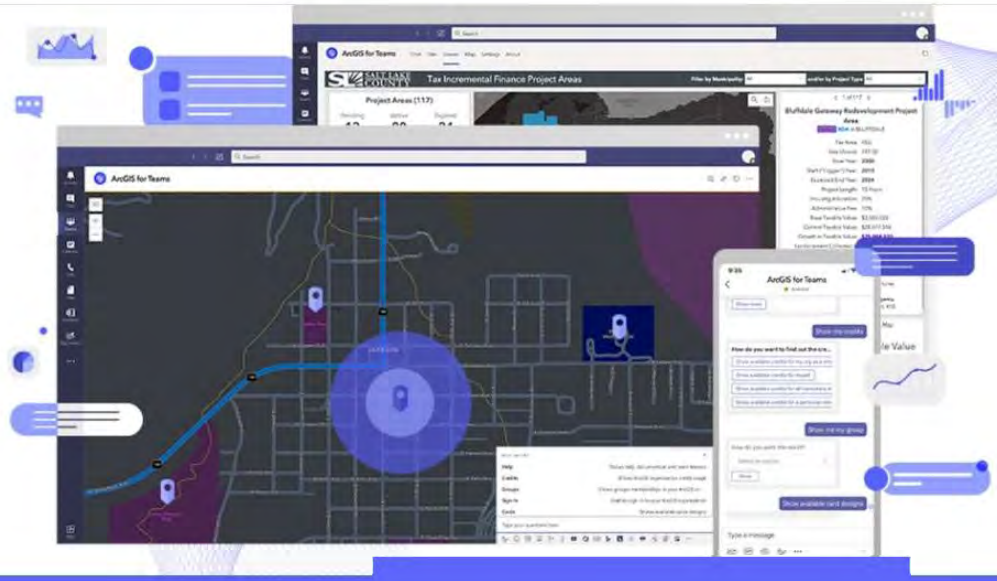
STAY CONNECTED



ArcGIS for Teams

ArcGIS for Teams

- Application is available for ArcGIS Online Only
  - Search
  - View
  - Share
- From within Microsoft Teams
  - Insert maps and apps where the conversation is happening
    - Leverage ArcGIS Apps & Capabilities in Teams
    - Open Survey 123, Dashboards and more within Teams
  - Manage your ArcGIS organization from within Teams
  - Refine your searches to discover items fast



ArcGIS for Teams

Transform teamwork with maps and apps in Microsoft Teams

Designed for coordination and collaboration

Seamless collaboration across an organization starts with ArcGIS for Teams. This Microsoft Teams integration enables teams to create maps, share content, and manage data in a centralized location, all while leveraging ArcGIS apps in everyday chats and meetings.

Maps and apps in Microsoft Teams

Maps and apps at your fingertips

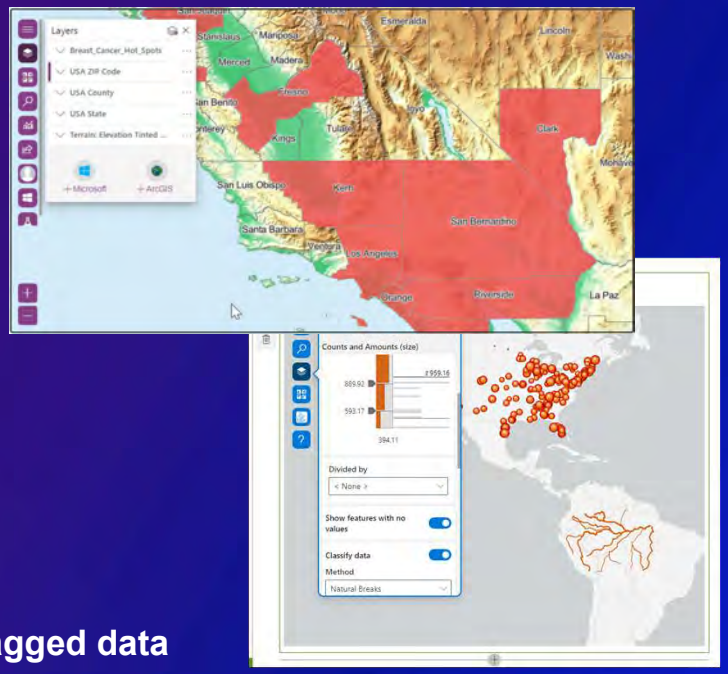
Keep content central and organized

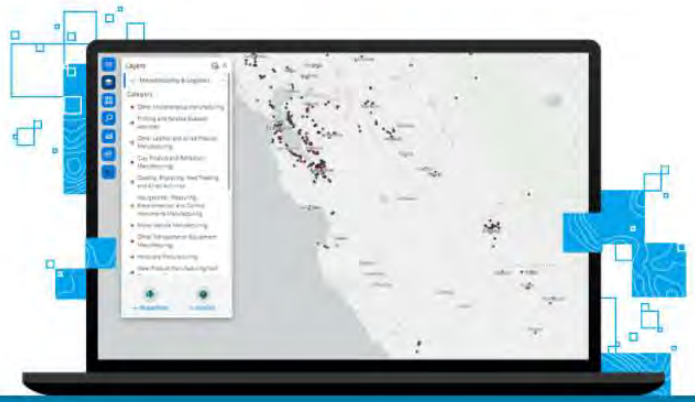
Share content in seconds

ArcGIS for SharePoint

ArcGIS for SharePoint

- Visualize SharePoint data on your map
  - Convert any Location
- Add layers for context
  - Living Atlas, Demographics, Organizational GIS data
- Light weight analysis
  - Detect Patterns & Trends in your data
- Tag & Find documents easily
  - Drag & drop documents on a map to *geotag* them.
    - When you need that data, click on the map feature to view tagged data
- Build intra/internet sites across organization
  - View Interactive Maps
- Publish layers to ArcGIS to be used in other applications
  - Support for creating new feature layers, updating a shared layer and updating a layer based on changes to the SharePoint data





ArcGIS for SharePoint

Map and search Microsoft SharePoint content

ArcGIS for SharePoint is an app that allows you to map and search content in Microsoft SharePoint. Visualize data on ArcGIS maps. Use ArcGIS tools to manage and analyze for deeper understanding and better decision-making. Enhance your data and maps with ready-to-use geographic content from ArcGIS. Then, share the maps you create.

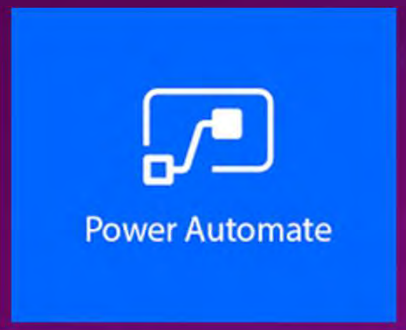
Turn on the power of maps

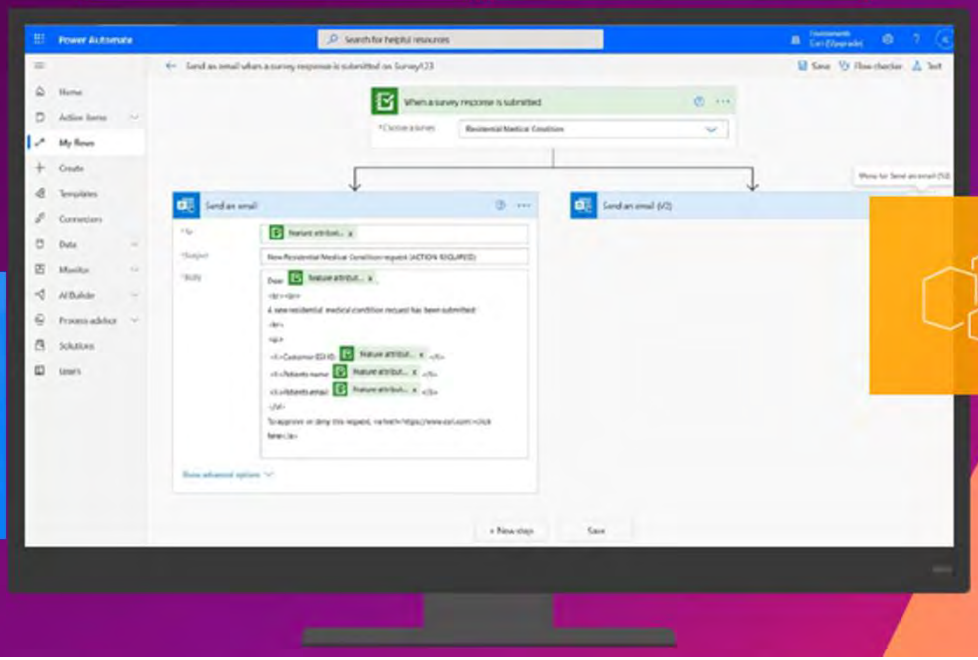
Allow SharePoint users across your organization to use, search, and share data-driven maps and geotagged documents in a familiar SharePoint framework.

Tag and find documents easily

Help your team find important documents fast. Drag and drop documents on a map to geotag them. When you need that data, click on the map feature to view tagged data.

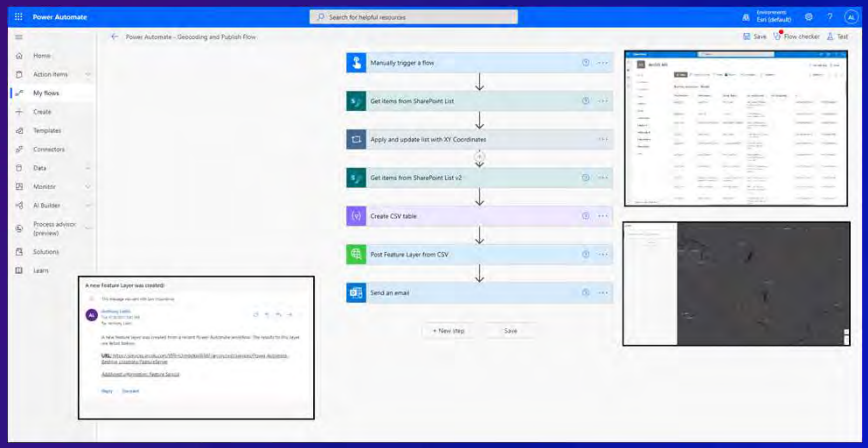
ArcGIS and Power Automate





Power Automate Actions

- ArcGIS Actions
  - Single/Multiline address matching
  - Boundary Matching
  - Routing and Directions
  - Demographic Enrichment
  - Add data to/from ArcGIS
- Ready to use “recipes” to get you started quickly
- Use to preprocess
  - Geo-enablement of data
  - Enrich data with demographics
  - Move data to/from ArcGIS



Licensing

ArcGIS Maps for SharePoint

ArcGIS Maps for Teams

Road Ahead

Road Map

- **Current Development**
  - Consistent mapping user experience for Office 365, SharePoint & Power BI
  - Performance Enhancements
  - Power Automate Expansion

2021 & Beyond

- Microsoft 365 Certification for Government Cloud Community (GCC)
- Location Services via API Keys
- Introduce Web version of Excel & PowerPoint
- Full 3D Support across all products
- Add Power Apps Map Component

Esri & Microsoft Wrap Up

- ArcGIS For Office – free app, supported Add-in
- ArcGIS for Teams – free app installed via Teams
- ArcGIS for Power BI - comes with app out-of-the box
- ArcGIS for SharePoint - free app, supported Add-in

Thank you!
